To be able to take one of our vehicles abroad the hirer is required to take out their own 5* recovery cover and a completed VE103B overseas certificate available from <http://www.rac.co.uk/drive/travel/driving-abroad/vehicle-on-hire/> at a cost of £8.00 which can take up to 14 days to arrive. Evidence of meeting these requirements will need to be provided when making final payment for the vehicle hire.

France has introduced 'clean air' windscreen stickers, as a legal requirement in some of its major cities, to identify a vehicle's emissions levels.

British drivers heading to the France capital are advised by the RAC that driving without a France 'clean air' sticker, called a Crit'Air vignette – which costs as little as £3.20 – makes them culpable for an on-the-spot fine of up to £117.

These clean air stickers, known as Crit'air stickers, denote the level of emissions your vehicle produces, and is based on your car's Euro emissions rating. There's a chance if you drive a slightly older car, it might not be allowed in to certain cities at certain times based on air quality levels on that day.

It is the responsibility of the hirer to find out if they need a 'clean air' sticker and to purchase it prior to travel. The link to the R.A.C. website will provide more information.

All drivers are required to go onto <https://www.gov.uk/view-driving-licence> and complete a licence check and provide the generated code when collecting a vehicle. The code generated is only valid for 21 so please complete within this time.

When booking a vehicle to take abroad a non-refundable deposit of £100.00 will be required with the balance payable four weeks prior to your journey. If your journey is within 4 weeks of booking full payment will be required.
